

Preventing Infection, Protecting Lives

SL Series

Explore the diverse range of spunlace wet wipes, which are durable, highly efficient for cleaning surfaces, versatile, and highly absorbent.

TB Series

These thermal bonded wet wipes offer great value for money due to better wetting and dispersibility characteristics which deliver active ingredients onto surface more effectively.

CP Series

This crepe paper series is designed to clean and polish surfaces without linting and less streaks. It is available in convenient canister or bucket variations that make dispensing easier.

MC Series

Explore macerator-friendly wet wipes for convenience and better hygiene.
